

Citrix – How to Setup (Apple IPAD)

- Go to the IPAD home screen

- Open the App Store - Search for Citrix Receiver – Install the Citrix Receiver

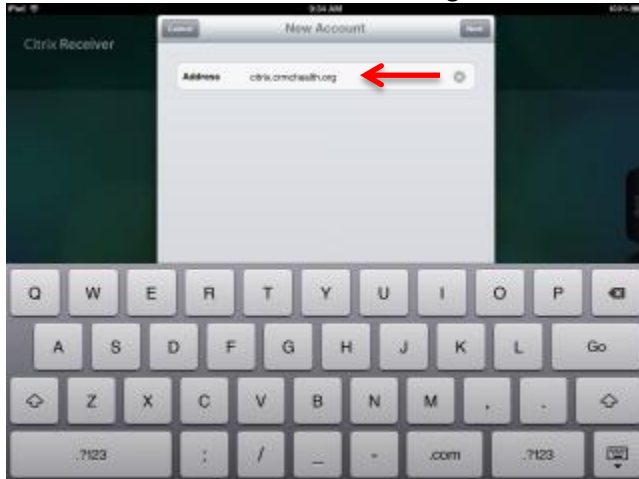

- Once the Receiver is downloaded and installed, open it

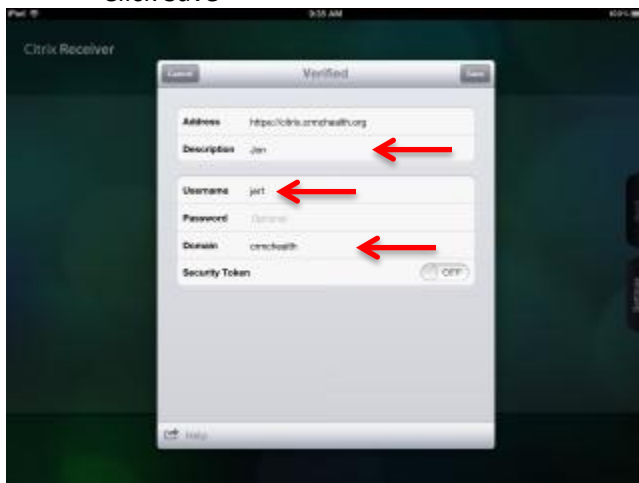

- Click Add Account

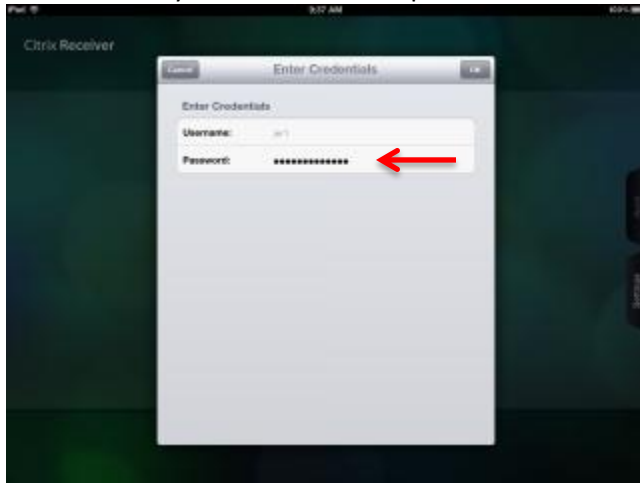

- Address: citrix.crmchealth.org – Click Next

- Enter a Description: CRMC Citrix
- (Internal User) Username / Password: Use the logon you use for CRMC Webmail
- (External User) Username / Password: Given to you by CRMC IS Department
- Domain: Enter crmchealth
- Click Save

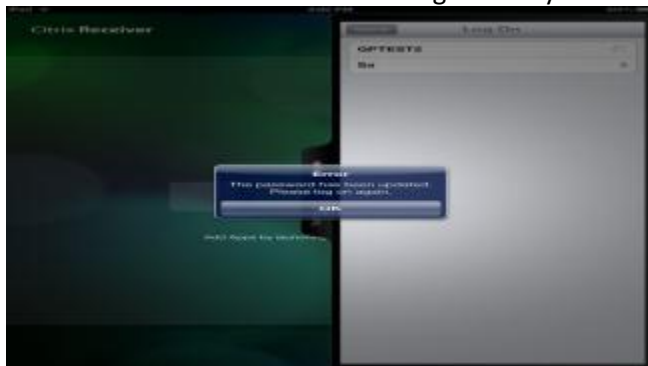

- Enter your CRMC domain password and click OK

- You may be requested to change your password | If so, enter a new password

- Click OK. You will need to logon with your new password.

- Available applications will show up in the list. Click on an application to open it.

- Under the Settings tab you have many options. Typically the only thing you might change is the Accounts setting if you need to delete your CRMC Citrix connection and recreate it.
